- Fabric!
 - Kit can be purchased at Quilters to get you started for \$25 (if requested) as noted above

 - Some of Laura’s patterns do not have fabric requirements because they are collages and collages are made up of small pieces of fabric.
 - Fabric depends on what you love. We will not be using whole pieces of fabric; we will be taking parts of the fabric. You will see fabric in a different way.

- Background fabric tends to be lighter in color, or fabric with wording. You may be able to use the left-over fabric from your design also. You should have 7-10, 4"x6" of background fabric, if your design is 19x23. If your design is larger, you will want to have more background fabric.
- For your main design, look at your pattern and choose fabric that works for you. We all have a fabric stash so I'm sure you will have more than enough to make it work.
- You will need batting and backing fabric to quilt your quilt.
